## **IT Resource Becomes Microsoft Academic Licensing Partner**

**Coopersville, MI – May 23, 2011** – IT Resource, a local provider of IT solutions and a Microsoft Partner, has become eligible to offer Microsoft products to schools at academic pricing levels.

Gary Lutz, managing partner of IT Resource, is excited about the new certification status and what it will bring to existing and potential customers. “We can now help customers save valuable education dollars by providing necessary software at academic pricing levels,” he says. “This is a wonderful opportunity for educational institutions, and it enhances the relationship that we’ve had with Microsoft for over a decade.”

Becoming a licensing partner required achieving the Microsoft Partner status, taking written certification exams and demonstrating a commitment to serving the educational marketplace.

IT Resource is a provider of Information Technology services throughout the state of Michigan. They provide cost effective IT solutions for customers including consulting, virtualization, unified communications, messaging solutions, and disaster recovery.
