IT Resource Receives Michigan Economic Bright Spot Award

Coopersville, MI – June 7, 2010 – IT Resource was selected out of hundreds of nominees as one of Michigan's Economic Bright Spots. The award was presented by Corp! Magazine, which focuses on business in the state of Michigan.

Potential contributing factors in being selected as a recipient of this prestigious award include steady growth rates each year since the inception of the company in 2000, using local vendors, and significantly investing back into the community. IT Resource and their employees are active participants in multiple Chambers of Commerce and the Rotary Club of Coopersville, and they have donated to projects at both Coopersville and Spring Lake area public schools.

Leo Reap, managing partner of IT Resource, has no plans to move the company out of the state. "We call Michigan home. Even though there are other locations which may provide better business incentives for our type of business, Michigan is the place we want to be." Reap said. "We feel very honored to be recognized for our contribution and leadership in this great state."

Nominees were selected based on their involvement in a Michigan economic development project for industrial or commercial purposes, expansion of their business, involvement in an emerging or growth business sector, and the fact that they had made a conscious decision to stay in Michigan, despite opportunities to relocate outside of the state.
