

HOSTING & CO-LOCATION

Hosting

In order to best serve each individual client, we offer a number of different hosting plans featuring Windows® servers, Microsoft® Small Business Servers and Exchange hosting as well as off-site replication and failover services for e-mail and database systems. Our hosting solutions can be as simple as a single off-site domain controller to a complete off-site replicated network environment.

- Server Hosting (Windows®/Linux/etc.)
- Microsoft® Small Business Server Solution Hosting
- Server replication & failover
- Off-site data back-up archiving
- E-mail antivirus/anti-spam
- Network faxing solutions

Co-location

Put your hardware into our data center for a low monthly charge. The rack unit (HP rack) and all utilities (electrical, cooling, backup generator, etc.) are included in the monthly service price. You can choose the bandwidth and number of public IP addresses you require, or you can provide your own telecom connections. Co-location is priced by individual rack units with discounts for full racks. Engineering services to install and configure equipment are available at time and materials.

- Full Rack
- Customizable Bandwidth
- Backup services available
- Customizable racks
- Monitoring services available
- Engineering services available

Software as a Service (SaaS)

Need an easy and cost-effective way to provide software services to your local or remote workforce? Our software hosting services allow you access to the latest software applications at a low monthly price. Easily add or remove software applications and increase or decrease usage counts as your needs and workforce changes.

- Microsoft® Exchange/Outlook
- Microsoft® Office Applications
- Microsoft® Windows Server/Small Business Server/etc.
